# Manuel Esteban Erazo Medina

Full Stack Developer
Bogotá, Colombia | Open to international remote roles
meerazo7@hotmail.com | +57 311 271 1242
manudev.vercel.app | github.com/Manuekle | linkedin.com/in/manuekle

## Education

**Fundación Universitaria de Popayán**
Systems Engineering — June 2026

## Experience

**GymRat+**
*Founder and Full Stack Developer | Remote* — *Jan 2024 - Present*
- Founded a fitness and coaching platform with 60 users; built training plans, nutrition, athlete progress, coach management, authentication, memberships and payments.
- Develop the web product with Next.js, TypeScript, PostgreSQL and Drizzle, from interfaces and APIs to data models and deployment.

**Independent**
*Full Stack Developer | Remote* — *Jan 2023 - Present*
- Build web applications, APIs and AI integrations with React, Next.js, TypeScript and SQL/NoSQL databases, including identity, dashboards and deployment.

**Smurfit Kappa Cartón Colombia**
*Mobile Application Developer | Remote* — *Aug 2025 - Nov 2025*
- Developed ButterflyAR with Flutter and Dart, connecting a printed educational butterfly book to interactive mobile augmented reality content.

**Servicio Nacional de Aprendizaje (SENA)**
*Software Developer | Remote* — *Mar 2021 - Nov 2022*
- Collaborated in a development team on an internal digital system, contributing backend logic and administrative features.

## Selected Projects

**Oruka | Next.js, TypeScript, PostgreSQL, Docker** | oruka.si/en
- Built an AI support and sales inbox for WhatsApp and Instagram with knowledge-grounded agents; designed isolated customer provisioning and staged releases. Private beta, with no users yet.

**Frontier Lab10 | TypeScript, Node.js, SQLite** | manuekle.github.io/lab10-hack
- Built a supervised VNC desktop agent with action budgets, timeouts and execution traces. Completed 45 of 56 hidden evaluation tasks on 11 October 2026; detailed scoring pending.

**creagent | Next.js, TypeScript, MCP** | creagent.fun/demo
- Built a visual AI agent composer with reusable skills and client exports; published an MCP server as @manudev.jsx/creagent. Source-available application; MIT-licensed server.

**KanaGO! | Swift, SwiftUI, WidgetKit** | kanago.vercel.app
- Built a native iPhone app with SM-2 spaced repetition, local progress, handwriting practice, audio and home/lock-screen widgets; created its bilingual launch website. App Store release pending.

## Technical Skills and Languages

**Web and data:** TypeScript, JavaScript, React, Next.js, Node.js, REST APIs, PostgreSQL, SQL, MongoDB, Drizzle, Prisma.
**Mobile and infrastructure:** Swift, SwiftUI, WidgetKit, Flutter, Dart, Docker, Git, Linux, Vercel.
**AI and languages:** LLM integration, MCP, Azure AI Foundry. Spanish: native. English: B1 intermediate.
**Certifications:** Building with the Claude API (Anthropic); Agents League Reasoning Agents (Global AI Community).
